Topic Homework- Under the Sea

In addition to the year 5/6 Maths and SPaG homework and the year 3/4 Maths homework; children will be required to complete **at least 2 topic based activities** to share with the class at the end of this term. These are open activities as the children are free to choose what they do and how they present it, as long as both of the pieces of homework are based on our topic- Under the Sea. The due date for the 2 tasks to be completed is: Monday 12th December

Below are some ideas for the two activities your child could undertake:

- A powerpoint on different sea creatures
- Diorama of a fish scene
- A film review of an under the sea film
- A sea creature animation
- Artwork based on our topic- under the sea
- A story based on our topic- under the sea
- Create a dance to- Under the sea from the Little Mermaid
- Photographs of a day fishing
- Make 3d models
-

These are just some ideas on what your child could do. However, if your child has been inspired by something we have done in class or by something learnt at home it would be fantastic to see them portraying that in their own piece of work. If children are unsure of the suitability of a project idea do not hesitate to ask the class teacher. We look forward to seeing the inspiring work completed by the children.

Many Thanks

Miss Perkins
